BiCAT ® 8108

BiCAT ® 8108 is a polyurethane catalyst and a suitable solution for a wide range of polyurethane coatings, adhesive/sealants and elastomer systems.

Technical Specifications

Bismuth	19.7 - 20.3%
Nonvolatiles	85% min
Viscosity (Brookfield) @ 25°C	100 poise max
Color (Gardner)	7 max
Specific Gravity @ 25/25°C	1.15 - 1.21

Product Number

1379C

Description:

liquid ranging in color from pale yellow to light brown with a musty fatty acid odor

Application:

POLYURETHANES

Packaging:

500 lb - 55 gallon steel closed head drum

Chemical Formula:

Manufactured under ISO 9001 registered quality management systems.

4900 Beach Street, Norwood OH 45212 • P:513-731-1110 • www.shepchem.com
