BiCAT ® 8118

BiCAT ® 8118 is a polyurethane catalyst that provides an alternative to tin catalysts for various polyurethane coatings, adhesive/sealants, elastomer systems, and foam applications. Bismuth Carboxylate Mixtures such as BiCAT 8118 offer superior mechanical properties to other catalysts and act as low-toxic selective urethane gelling compounds. BiCAT 8118 is an excellent replacement for adhesive formulations.

Technical Specifications

Bismuth	15.7 - 16.3%
Nonvolatiles (3 hrs @ 105°C)	70% min
Specific Gravity @ 25/25°C	1.09 - 1.15
Color (Gardner)	6 max.
Viscosity (Brookfield) @25°C	30 Poise max

Product Number

1381C

Description:

liquid ranging in color from pale yellow to light brown with a musty fatty acid odor

Application:

POLYURETHANES

Packaging:

450 lb - 55 gallon steel closed head drum

Chemical Formula:

Manufactured under ISO 9001 registered quality management systems.

4900 Beach Street, Norwood OH 45212 • P:513-731-1110 • www.shepchem.com
