RE: Force Majeure Notice Due to Severe Weather Conditions.

Due to the impact caused by the severe weather conditions throughout the US, the widespread electrical power outages across Texas, and the subsequent impact to key utilities, Oxiteno USA LLC ("Oxiteno") has been forced to temporarily shut down its Pasadena, TX industrial facility, thus, provides this notice of force majeure and suspension of performance of its obligations.

Oxiteno is monitoring this force majeure event and is working diligently to resume operations as soon as possible. Oxiteno will provide updates as and when further information becomes available.

With the widespread power loss in Texas, many Oxiteno employees do not have power or access to phone or email, so please expect some delay in communications.

Sincerely,

A handwritten signature in black ink, appearing to read "AS", written over a horizontal line.

Alberto Slikta

Chief Operating Officer
